

Funded Trading Account Rules

January 2021

1. Traders need to flat all positions before 16:00 EST. No overnight positions are allowed.
2. Traders will be fully responsible for managing their orders and their positions.
3. Trader will start with half of their daily max loss on the first day of live account.
4. Traders' daily max loss will be set to normal once their Total PnL balance is positive.
5. If the trader reaches the daily max on his first trading day, the daily max loss will be reduced to half on the second day. If the trader reaches the daily max on his second trading day, the daily max loss will be reduced to half on the third day. If the trader reaches the daily max loss for three consecutive days, they must go back to the ToroChallenge and prove themselves again at their own cost.
